Designer with full-stack development experience, building technically grounded interfaces from concept through implementation across academic, nonprofit, and product teams.

EDUCATION

Wheaton College, Wheaton, IL

B.A. Studio Art & B.S. Computer Science

GPA: 3.97/4.00 | Expected May 2027

Relevant Coursework: Graphic Design I, Data Structures & Algorithms, Platform-Specific Software Development (iOS)

SKILLS

Design: Figma, Webflow, Adobe Creative Suite (Photoshop, Illustrator, InDesign)

Technical: HTML, CSS, JavaScript, SQL, Python, Git, AI-assisted development (Replit)

Marketing: Mailchimp

EXPERIENCE

Web Design & Development Intern — MNN 2.0 Project Lead, Oneway Ministries (Mission Network News)

June 2026 – Present

- Serving as sole project lead for the end-to-end rebuild of the Mission Network News website — collaborating on UI/UX design in Figma and building out CMS structure, filtering, search, and sort functionality in Webflow using Finsweet Attributes
- Wrote Python scripts to migrate legacy WordPress content and databases into Webflow, using phpMyAdmin, cPanel, and PHP to extract and restructure data from CSV exports
- Maintaining platform stability by diagnosing and resolving live-site bugs and implementing synced backup infrastructure using QNAP

Graphic Design and UI Focus Intern, Anewgo

June 2025 – July 2025

- Collaborated on the redesign and launch of Anewgo's official website, using Replit AI to refine UI, debug code, and migrate content from WordPress
- Designed a range of branded marketing materials including event materials for the 2025 Jeff Shore Sales & Marketing Leadership Summit, newsletters, social templates, and presentation decks to improve visual consistency across platforms

Graphic Design Intern, Wheaton College Center for Vocation and Career

January 2024 – Present

- Led a full rebrand of CVC's visual identity, gathering feedback via polls and stakeholder interviews to establish a comprehensive brand guide covering color, typography, iconography, and photography, and directing a two-part photoshoot to build a branded photo library
- Designed cohesive branding systems for major career-development event series (Sophomore Series, Senior Series, Way5), reaching up to or over 100 students per event
- Redesigned page structure and layout for CVC's website using Terminal4, and produced a monthly newsletter reaching the full campus community

Media and Admin Intern, The Redemption Church

January 2024 – Present

- Designed and distributed weekly newsletters via Mailchimp and Sunday announcement slides for two campuses
- Created visual communication materials for church events and coordinated presenter communications across campuses

Teaching Assistant, Computer Science Department

August 2025 – May 2026

- Supported instruction across Programming II, Programming for the Mathematical Sciences, and CS Lab sessions through grading, debugging support, and concept explanation

PROJECTS

Habit Tracking App

- Owned the full Firebase backend and led UI/frontend development for a team-built habit-tracking app, including streaks, daily habit lists, calendar view, and achievement tracking
- Built key functionality including multi-user account linking, Google authentication, and persistent data storage, using HTML/CSS/JavaScript and Firebase

Design Ideation App (iOS) — Platform-Specific Software Development

- Solo-built an iOS app supporting creative ideation — storing multi-format notes (photo, color, text) and providing guided design surveys with feedback to help shape a product, brand, or idea
- Designed UI in Figma, then built in Swift/Xcode

Freelance Design Work

- Designed campus-wide promotional materials — including social media posts, posters, and vinyl wall displays — for Wheaton College Student Engagement Office's student leadership recruitment campaigns (2025–2027)
- Created event branding, including posters and email banners, for the Wheaton College Student Engagement Office's senior class event
